Miss Celestine Eustis who has been quite ill at Aiken is gradually regaining her health.

Winter tourists at Aiken have been getting a fox drag in readiness by their own labor. Recently Maj. and Mrs. Thomas Hitchcock, Mrs. John C. Mallory, Mrs. Joseph Hoffmann, Colonel and Mrs. Richard Deady, Major and Mrs. William Eustis, Lieut. "Tommy" Hitchcock, Mr. Willie Carter, Mr. G. H. Pyne, Miss Sophie Mott and students from the Aiken Preparatory School had a wood chopping party along the fox drag. Mrs. Helen Hitchcock cut down the largest of the trees felled by the women. Others burned brush and piled wood out of the way. The party started to work at 9 o'clock and worked like laborers all day. A luncheon was served at noon.

Of widespread interest is the news that Miss Grace E. Cumcock, youngest daughter of Mr. and Mrs. Alexander G. Cumcock, who has many relatives and friends here and in New York, was married in Lowell, Mass., Saturday in her parents' home to Dr. Norman E. Dittman, of New York, son of Mr. and Mrs. Andrew J. Dittman, of that city and of Englewood, N. J. There were several guests from New York and Washington and a special train brought others from Boston.

The bride, who was given away by her father, wore a dress of white satin, broadened with silver thread and edged with a court train of silver cloth. Her veil was of rose point lace, with a coronet of orange blossoms. Her only attendant was her niece, Miss Katherine Cumcock Blodgett, who is engaged to Maj. Morris Hadley, a son of Dr. Arthur T. Hadley, president of Yale University. She wore a gown of mauve chiffon, with a light blue sash and hat of mauve Georgette crepe, trimmed with pink roses and a blue streamer.

Mr. Henry W. Dittman, a brother of the bridegroom, was best man. The ushers were Mr. Arthur J. Cumcock, a brother of the bride, and Lieut. Albert J. Dittman, a brother of the bridegroom, both of New York City; Mr. John Wood Blodgett and Mr. John Wood Blodgett, Jr., of Princeton, Mass.; brother-in-law and nephew of the bride; Maj. Frederick B. Clark, brother-in-law of the bridegroom; Col. Howard Caswell Smith, Mr. H. LeRoy Pitkin, of New York, and Maj. Henry H. Armstrong, of Washington.

Dr. Dittman is a grandson of the late Henry Dittman and of the late James Stewart, both of Philadelphia. He was graduated from Yale in 1908, and from the college of Physicians and Surgeons in New York in 1910. He spent several years in medical research work in this country and in Europe, and received the degrees of M. A. and Ph. D. from Columbia University. He is assistant attending physician at St. Luke's Hospital, New York, and a trustee of the American Red Cross. He is a member of the University and the Yale clubs in New York City.

Dr. and Mrs. Dittman will occupy an apartment in New York, until June, when they will go to Southampton, Long Island, for the summer.

Lieut. Andre L'Hullier, French ace, and his wife, gave a reception at the last night on "The Devastated Villages of France," at the Arts Club, assisted by David Messer, violinist, who played some Slovak compositions.

It was the usual Sunday night function at the club. Mr. Messer is a graduate of the Damrosch Institute at New York. He is now in the Judge Advocate General's office in Washington to reside in Washington when he is mustered out of service.

Mrs. Frank B. Kellogg and her sister, Mrs. Otis, have gone to New York to spend a few days. Mrs. Kellogg will not receive next Thursday at her home in Washington until after that time.

The Women's Club of Bethesda will meet tomorrow at 2 o'clock at the residence of Mrs. R. C. Offutt on the Rockville road at Bradley Lane. It is one of the club's guest days. The speaker of the occasion will be Lieut. Alfred Baker of the U. S. Air Service.

The students of Trinity College have lifted the ban which they themselves imposed on all social affairs at the college during war time. On Monday, February 18, a reception was given in former years was held in the college parlors. Many friends of the students made use of this opportunity to call and see them. The event of the evening was the dance which was the dance arranged by the Washington Chapter of the Trinity College Alumnae. This took place on Friday, Feb. 15, at the New York Hotel. Over 200 couples were present. All voted it the most successful dance which has yet been arranged by the chapter. The proceeds from the dance go to swell the fund for the new gymnasium which the alumnae are erecting for their alma mater. The part of the building which contains the swimming pool is already completed and in constant use.

The present senior class will restore the class day exercises and the musical dramatic entertainments traditional for commencement week. Last year it was voted to dispense with these exercises as a patriotic act. The time and money thus saved were employed in various war activities. Before Christmas in 1918, \$4,000 had been raised in the college for the Fourth Liberty Loan and more than \$2,000 were subscribed for the United War Work Campaign. Many smaller sums were likewise collected at various times for different branches of war work.

Hundred Dollars' Worth of Work in Dollar's Worth of Tools--For the Kitchen

Mme. Housekeeper, have you reduced your kitchen equipment to a scientific basis? Do you get full value out of every pot, pan, dish, knife or other cooking tool in your food workshop?

If not, this is a good time to clean house, weed out the nonessentials, sorting and organizing, and replacing outworn utensils every day, and adding to the equipment such pieces as have proved real time and step-savers to numerous housekeepers.

Most kitchens are cluttered with tools seldom or never used—with pots and pans too large for use except on special occasions. These large utensils should be retired to upper shelves or storeroom, where they will be out of the way and yet ready if needed.

Then there is usually a motley collection of chipped enamelware, tin a little rusty or dented, chipped china and earthenware and assorted pieces not used, but "too good to throw away." All such things should be mercilessly cleared out and sold to the junk man. They are space wasters and dust collectors.

The table drawers where knives, spoons, beaters, fancy cutters, etc., are kept will also stand an elimination contest. Implements seldom used should be put in a separate box and set out in the center of the daily helpers.

A few tools of the proper kind and in good condition should replace all the doubtful or imperfect ones. It is surprising with how few tools a good housewife can manage, and save space and money.

A spatula, that long, thin-bladed, flexible knife-like tool, is one of the treasures of a good housewife—and can be bought for 25 cents. The spatula is the ideal tool for scraping bowls and pans free of dough or batter, to lift dough shaped for cookies or doughnuts from board to pan, to

lift cooked food from pans, and to aid in getting puddings, jellies, etc., out of molds. A dozen other uses will suggest themselves to the cook.

The halter of dish-washing will praise any one who uses the simple plate-scraper made by inserting a flat piece of hard rubber in a metal holder and giving it a handle. It costs the whole sum of 10 cents and is worth its weight in silver in the busy job of scraping up after a meal.

To keep sanitary, wash carefully in hot water after using and then harden the rubber in cold water.

An egg-separator costs 5 cents and is worth a dollar when it comes to baking day. Separating the yolks and whites of six eggs is no job at all with this help. Set it over a cup, break the egg over it, and the yolk falls neatly into the center, while the white slips through the slots into the cup.

Small aluminum measuring spoons—three on a ring—measure one-quarter, one-half and one teaspoonful. They save the bother of leveling a spoonful and dividing it and provide for exact measurements.

The glass measuring cup is the next convenience. It costs 15 cents and is worth it in its saving of spoiled dishes by insuring correct measure. A little pitcher spout or pouring liquids adds to its value.

The grapefruit knife is useful in loosening orange and grapefruit pulp from the skins. In getting the eyes out of potatoes, coring apples, and in many other places where a curved knife-blade is handy.

Perhaps the 10-cent vegetable brush is handiest of all. It is essential in cleaning root vegetables and is an ever-ready friend about the kitchen sink and stove.

The Screen

Saw Charlie Ray in "The Girl Dodger" yesterday at the Columbia. Had the whole thing explained to me by a couple sweet things directly to the rear. Mighty nice of them but I sure will be glad when I get big enough to read the titles without assistance.

I hereby nominate that impassive and robust ticket snatcher at Loew's Palace for a prominent niche in Tom Moore's art gallery at the Rialto. Wouldn't he make a swell personification of "Gloom"?

Tom O'Donnell is always bustling into this column. He thought he wasn't going to make it today, so he quit his job at the Virginia and West Virginia just so he couldn't miss. Tom says his navy needs his full attention.

Benny Greenfield is the young man who is going to keep the Virginias to the fore, now that Tom's resigned. Benny has done everything in the film business we know of except act. He's still too wise for that.

Viv Whitaker, Select's manager, is becoming a humorist. He got on the car the other night and couldn't quite squeeze in enough to let the folding doors miss him. "Whistle when you're ready," growled the conductor. "Here's not a whistle," snapped Vivian. Viv wins.

One of Tom Moore's canaries has the flu. Suppose I could say something about in-flu-enza, but I won't.

HOROSCOPE.

MONDAY, FEBRUARY 24, 1919.

Saturn rules strongly for good this day, according to astrology. Early in the morning both Mars and Neptune are adverse.

This should be a fortunate away under which to undertake real estate or building projects. There is a prognostication of benefit from construction enterprises during the spring months.

Farmers have a good omen today. There is a forecast that recent indications of the use of new machinery and improved methods of husbandry.

Europe will contribute to agriculture ideas as far as intensive farming or methods of thrift are concerned. It is predicted.

Trouble over the adjustment of army and navy matters may arise, owing to the power of planets that emphasize personal ambitions.

The forces that make for material gain are strong during this configuration and it is an auspicious time to make connections with men or corporations that have won success.

One of the malefic planets today is believed to cause deceitfulness and even untruthfulness. A tendency to exaggerate is noticeable.

The drama will receive an impetus through some great movement that will benefit the people.

The stars forecast much discussion concerning the relation of men and women socially as well as industrially.

Growth of religious feeling and spiritual consciousness will be evident in the gradual evolution of after-war conditions, if the stars are read aright.

A new attitude toward work will be one of the permanent benefits derived from the war, astrologers declare, for the planet Mars, the general industry and increasing respect for it.

Persons whose birthdate it is may have some concern about health and wealth during the coming year. Those who are employed should be careful.

Children born on this day may be rather hard to control and too generous for their grandmothers. The subjects of Placens are not usually fortunate in business.
